

Bala Growth Report

Pediatric growth monitoring summary

Report date
31.08.2026

Demo child 2

Birth date: 15.09.2019

Gender: Female

LATEST HEIGHT

H

116 cm

Measured: 12.08.2025

LATEST WEIGHT

W

21 kg

Measured: 12.08.2025

WHO PERCENTILE

P

50th–85th

Height-for-age

Z-SCORE

Z

0.00

Height-for-age

Growth Assessment

WHO percentile: 50th–85th

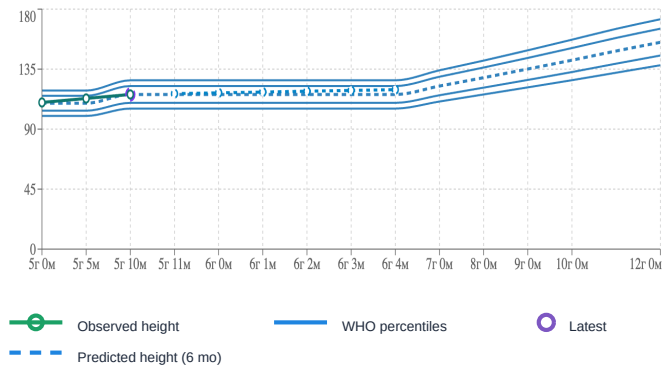

Z-score: 0.00

Status: Normal growth

Predicted height trend is upward over the next 6 months (+3 cm). Current measurements are within expected WHO-based range. No clear warning signs were detected in recent growth dynamics.
